

Project N

Synopsis

What are you going to do if AI dominates the world?

The government secretly carries out a project that uses AI to chair the whole city. No one knows about this secret. However, confidential documents about this project are concealed in a broadcasting station where it was nearly published but prevented by unknown influence.

Two spies, a team, are trying to break into the station to steal the secret document and reveal the government's underground.

Scene Script

Location

Atmosphere

Character Action

Emotion
